HANSEN HIGHLIGHTS

- Hansen Highlights will be sent out every week unless no new information is received. If you have an event or something to pass please plan ahead and send your information to bierlybt@iimef.usmc.mil at least 1 week in advance. If you wish to be taken off of the Hansen Highlights E-mailing distribution list, or to be added, please contact me and I will add you.

NAVY FEDERAL CREDIT UNION

Navy Federal Credit Union, Camp Hansen, offers a free Financial Management Brief. This brief includes information on short-term and long-term savings programs, credit bureau reports, and how to establish good credit. These briefs can also be tailored to meet your own needs. We will come to your unit, by appointment, by contacting us at 623-5062.

CAMP HANSEN USO

Due to the recent deployments, the USO will be temporarily closing early at night. The hours of operations is as follows:

<u>BEFORE</u>	<u>NOW</u>
SUN - THURS 0900 - 2200	SUN - THURS 0900 - 2100
FRI & SAT 0900 - 2400	FRI & SAT 0900 - 2200

The Konnect Cafe closes thirty minutes prior to closing of the center. The duty managers will use their discretion to stay open if there are many people in the center, especially on paydays.

LOST AND FOUND

THE MILITARY POLICE ON CAMP HANSEN HAVE OBTAINED MULTIPLE ITEMS OF LOST-AND-FOUND PROPERTY THAT ARE AWAITING DISPOSAL OR DESTRUCTION. ITEMS NOT CLAIMED WITHIN 120 DAYS WILL BE PROCESSED FOR DISPOSAL. IF YOU BELIEVE THAT YOUR PROPERTY MAY BE ON THE LOST-AND-FOUND PROPERTY LIST, PLEASE CALL 623-4166.

MyPay, Marine Online, and Marine 4 Life

- You can view and print your LES, check your last pay information, make pay changes, (i.e.. ALLOTMENTS, BONDS and DIRECT DEPOSIT), and change your TAX withholdings and (TSP) Thrift Savings Plan at the following DFAS website:
<https://mypay.dfas.mil/mypay.asp>
- All Marines will soon be required to have a Marine On Line (MOL) account. If you do not yet have an account, do to the following web site to set up your account:
<https://www.mol.usmc.mil/System/TFAS/Login.asp>
- Do you have 180 days or less in the Marine Corps? Go to <https://www.m4l.usmc.mil/to> get great resources for your transition back to Civilian life.

Camp Facilities

- If you need to schedule any of the facilities on Camp Hansen, go down to the Camp Services office and fill out a Reservation Request. Be sure to call camp services at 623-4649/4671 to see if the time you want to reserve is available first. Units are responsible for cleaning up any mess they make. Please try to make your reservations at least two weeks in advance. The earlier you try to reserve it, the more likely it will be available.
- If you wish to use the O-course, LZ, Theater, or Chapels contact camp services at 623-4649 or 623-4134.
- All playing fields are scheduled through the Hansen house of pain at 623-4831.

Range Control Notice

PLEASE GET THE WORD OUT - The CTA perimeter road West of Range Control leading to Range 4 is closed to ALL vehicles except PMO, the contractors that are working out there, and Range Control.

Tenant unit road tests, etc., in that area are NOT authorized at this time.

We have two major construction projects taking place out that way and any additional vehicles add to the congestion of traffic and heightens the chance of accidents.

We will advise when road is open again.

Staff Academy Instructors Wanted!

Include: Full name, rank, & SSN; Arrival date/tour length; Unit/camp assigned; Sponsor w/ contact number. If checking out, Please make appointments for your pre-inspection and final inspection at least 10 days prior to your departure.

ATTENTION BEQ OCCUPANTS

Are you due to PCS/rotate soon? If so, here are the proper steps you need to complete to get checked out of your room:

Pre-inspection: You must call the Camp Hansen Billeting Office to schedule a pre-inspection two (2) weeks out from your scheduled flight date. The number is 623-7340/7159. Here are some things that we look at during the pre-inspection.

1. Accountability of appliances signed for upon checking in.
2. Damage to room (if any)
3. Cleanliness

Final inspection: Final inspection will be conducted one (1) day prior to your flight date. All items that were noted on the pre-inspection that needed to be corrected must be complete at this time. Tenant must be present at time of final inspection to jointly sign with SEQ NCOIC. If the items noted in the pre-inspection checklist were not taken care of properly, you will not be cleared for final checkout with the Camp Hansen Billeting Office.

Linen: Your linen i.e. pillows, pillow cases, sheets and comforter will be left at the foot of your rack and folded neatly.

Checkout with Billeting Office: When you are cleared to check out with Billeting, you must bring your room key and turn it in to the duty clerk. We are open 24/7. Ensure that you sign the checkout book and have a desk clerk note in the system that you are no longer residing in the room that you were assigned.

Thanks, Camp Hansen Billeting

TRICARE

DEERS is the Defense Enrollment Eligibility Reporting System used to track information on all active duty service members, retirees, family members, and civilian employees here on Okinawa. It is important to keep your DEERS information updated in the status of the sponsor as well as your dependents. If you have recently become married, divorced, have a new family member, or have taken on the responsibility of a parent, your DEERS information should reflect those changes. If you have recently PCSed to Okinawa have a new mailing address and phone number, again DEERS should be updated. This is important simply because if your family members are not in DEERS, if their ID cards are not current, or if your contact information is incorrect, you and your dependents are not eligible to utilize TRICARE benefits of the military treatment facilities for direct medical care.

TRICARE is the DoD managed healthcare plan for active duty, retirees, and eligible family members. DEERS is relevant to your healthcare because, TRICARE verifies eligibility of active duty, retirees, and family members through DEERS. For example, if your child is enrolled in 12 or more credit hours per semester in college, their TRICARE benefits continue until they are 23 years of age. Insuring that their ID card stay current allows them to access healthcare no matter where they are without worry. A lack of current address and phone number can prolong a request for reimbursement to be processed and may even delay their medical care.

When you welcome a new addition to your family, insure you apply for your child's social security number (SSN) as soon as possible. A family member that does not have a SSN, as in the case of a newborn, will be given a temporary ID number, which should be updated with DEERS within 90 days. New procedures implemented in April 2003 flag the record of family members with temporary ID numbers that have not updated the SSN after 90 days. The family member may then be declined eligibility for direct care and unable to seek treatment at the military treatment facilities. If the family member is a local national and does not plan on petitioning for United States residency, a FIN number will be assigned.

TRICARE

Though civilian employees are not eligible for TRICARE, they are able to receive care at the military treatment facilities on a space available basis. Again, the sponsor should update DEERS when first arriving on island, as well as with any change in status, address, or phone number to insure no interruption in medical service.

The hospital and clinic's computer system CHCS, refers to DEERS information to verify eligibility. The information in DEERS can determine if you are able to make an appointment or refill medications. Furthermore, it provides the medical professionals the information on how to contact you.

To update your address and phone number, log on to <http://tricare.osd.mil/deers>, the DEERS Website, for any other changes, updates, or questions, please contact your local DEERS office. DEERS is located at the MPD on Torii, MPF or PSD on Kadena or the IPAC/CPAC offices located at the various camps on island. Keep in mind, it is the responsibility of the sponsor to update DEERS in person so that a Form 1172 can be signed by the DEERS Office and used for verification by your TRICARE Service Center. Listing family members on the SRB does not enroll them in DEER. If the sponsor is not available, the person with Power of Attorney may update DEERS. For more information on what forms are needed by each DEERS office, please call them directly.

NAVY SAFETY CENTER

COMMON SENSE GUIDELINES TO AVOID HEAT RELATED MISHAPS

- a. PT in the cooler morning or evening hours.
- b. Drink generous amounts of water before and during their activity.
- c. A water/electrolyte solution is the best for fluid replacement, if not available - use plain water. Alcohol or caffeine drinks are diuretics and dehydrate the body. As such, they are not good for fluid replacement. Sweet/sugar drinks take longer to absorb.
- d. Dilute sports drinks with plain water by 50 percent to increase water absorption rate.
- e. Dress lightly. Sweat suits, rubber sweats, or heavy garments do not enhance conditioning and may be extremely hazardous in hot weather. Light shorts and shirt are ideal for warm weather PT. Wear light colored clothing to lower heat absorption.
- f. Exercise in groups of two or more. The buddy system ensures more monitors in the event of heat problems.
- g. If you feel faint or sick, stop and rest immediately.
- h. Avoid sunburn. Sunburned skin does not sweat (a necessary body function which cools the body).
- i. Exercise with caution and at reduced risk levels, particularly following a period of illness or lay off. You must reacclimatize yourself both to the temperature and activity.
- j. Avoid salt tablets. Excessive salt impairs perspiration. A little shaker salt on food is OK for those who sweat excessively. Potassium loss is more involved in cramping. Replace potassium by eating more fresh fruit (juices, bananas, plums, etc.).

FLAG CONDITIONS

You can now get a snapshot of the current heat condition 24/7 through the Web for those who have access at <http://iiimefhqg/S-3/training.htm>

If you don't have Web access, the flag conditions can be obtained by calling the phone numbers listed below:

CAMP ORDER 5100.1

Subj: STANDING OPERATING PROCEDURES (SOP) FOR THE USE OF
HELMETS AND FLAK JACKETS WHILE IN A TACTICAL VEHICLE

Ref: (a) III MEF DMS Message 052344Z OCT 03

1. Purpose. To amplify direction for the wearing of Kevlar helmets and flak jackets as a safety precaution while operating or riding in tactical vehicles aboard Camp Hansen.
2. Background. The reference established policy for the use of Kevlar helmets and flak jackets while operating or riding in tactical vehicles both on and off government installations.
3. Action. Effective immediately, all III MEF/MCBJ personnel will wear a helmet and flak jacket while operating or riding in a tactical vehicle aboard Camp Hansen.
4. Exception. The **only** exception to this order is for personnel riding in a safety vehicle supporting physical training (provided that they are wearing a three point seatbelt) or a person who requires emergency transportation for medical services and any attending personnel.
5. Applicability. This order is applicable to all tenant organizations and activities aboard Camp Hansen and to all units that transit through Camp Hansen to the training ranges.

HAZMAT / HAZCOM

Viable and operational Hazard Communication Programs continue to lead the findings during Camp Hansen Annual Safety Inspections.

A viable HAZCOM Program should consist of:

- An inventory of all hazardous chemicals within the workplace.
- Material Safety Data Sheets for each Hazardous Chemical.
- Labeling of all containers with the Chemical Name, Specific Hazards of the Chemical, and the Manufacturer.
- Documented training for all personnel on the specific hazards of each chemical.

Being proactive in hazard prevention today is better than being reactive after an incident occurs.

Excellence in Safety is Essential to Excellence in Warfighting

- **ANSWERING** our Nation's call and achieving excellence in warfighting.
- **BEING** fit and able to perform the task whenever and wherever we may be assigned.
- **PERFORMING** the mission while personally managing the risks involved.

Electrical Safety

Of the TOP TWO deficiencies noted during Facility Safety Inspections are associated with electrical utilization systems (29 CFR 1910, Subpart S).

A good electrical safety checklist should include:

- Are electrical appliances such as vacuum cleaners, polishers, water fountains, etc... grounded?
- Is the use of flexible (extension) cords kept to a minimum; and, if used, has a Work Order been submitted for permanent electrical drops to be installed?
- Are multiple plug adapters prohibited from use?
- Are exposed conductors and cords with frayed or deteriorated insulation repaired or replaced promptly.
- Are all disconnecting switches and circuit breakers labeled to indicate their use or equipment served?

For further information and service contact the Hansen
FE Det at 623-4472.

From The Commandant

“ORM”

DTG: 142008Z JUL 04

MSGID/GENADMIN/CMC WASHINGTON DC/SD//

OPERATIONAL RISK MANAGEMENT (ORM) DEFINES RISK ASSESSMENT CODES BASED ON FREQUENCY AND SEVERITY OF A HAZARD; HOWEVER, MOST CLASS A MISHAPS AND FATALITIES RARELY INVOLVE ONLY ONE CAUSAL FACTOR - ESPECIALLY THE MOST PREVENTABLE ONES. THERE IS TYPICALLY A CHAIN OF EVENTS THAT INVOLVES NUMEROUS HAZARDS THAT WERE OVERLOOKED OR IGNORED.

- (1) MAKING GOOD RISK DECISIONS IS A PART OF MATURITY. EXPERIENCE AND TRAINING CONTRIBUTE TO THIS LEARNING PROCESS AND SOME INDIVIDUALS ACHIEVE A HIGHER LEVEL OF COMPETENCE AT MAKING RISK DECISIONS THAN OTHERS.*
- (2) WITHIN MOST PEOPLE IS A BASIC INSTINCT THAT DETECTS DANGER; HOWEVER, THERE ARE TIMES WHEN PEER PRESSURE, INCONVENIENCE, OR THE NEED TO ACCOMPLISH A MISSION TELL US TO IGNORE THAT INSTINCT.*

*WE NEED TO DEVELOP OUR CAPABILITY TO RECOGNIZE RISK, AND
LEARN TO TRUST OUR INSTINCTS WHEN SOMETHING TELLS US THAT
WHAT WE ARE ABOUT TO DO IS UNSAFE.*

- **SERIOUS HAZARDS CAN BE THOUGHT OF AS FLASHING RED LIGHTS.**
- **IF THERE ARE MULTIPLE FLASHING RED LIGHTS, THE OVERALL RISK IS INCREASED DRAMATICALLY.**
- **WHEN DEALING WITH MULTIPLE HAZARDS, BREAK THE CHAIN OF EVENTS BEFORE THEY MULTIPLY.**

*THE PURPOSE OF ORM IS NOT TO TELL US WE CAN'T DO
SOMETHING. IN CONTRAST, ORM ALLOWS US TO COMPLETE OUR
TASK WITH THE LOWEST POSSIBILITY OF MISHAPS. THIS IS
EQUALLY CRITICAL ON DUTY AND AFTER HOURS.*

*SEMPER FIDELIS, M. W. HAGEE, GENERAL, U.S. MARINE CORPS,
COMMANDANT OF THE MARINE CORPS*

The Final Test

Taken, in part, from the American Society of Safety Engineers, we believe...

... that no man lives or works entirely alone. He is involved with all men, touched by their accomplishments, marked by their failures.

If he fails the man beside him, he fails himself, and will share the burden of that loss.

The true horror of an accident is the realization that a man has failed himself - and more - that his colleagues have failed him.
